

LOKOFF 1 - Locking out kit

The Kewtech LOKOFF 1 kit covers many electrical locking out requirements. It comes with a safety hasp which only measure 115mm long and can cater for up to six padlocks allowing for several workmen on one job. Two MCB locking devices are included, one where the locking pins move outwards and one where the locking pins move inwards catering for the two generic designs of MCB.

The safety padlock with an insulated jacket fits all these devices and comes with two keys and two warning labels.

The entire kit comes in a convenient, durable bag to keep everything together.

Kit includes:

- Electrical Safety hasp to fit 6 padlocks
- 'Pin in' MCB locking device
- 'Pin out' MCB locking device
- Padlock with insulated body and two keys
- Two warning labels
- Convenient carry pouch
